Greetings fellow member of Heroin Anonymous,

It is no great secret that there is a lot of uncertainty right now all around the world. Important decisions for this fellowship are no different. There have been many members wondering what the future might look like for the world convention and the conference that are both scheduled to take place in August this year in Atlanta, Ga. Before making a decision like this, the WSOB is looking to find out what the fellowship thinks. Please be sure to fill out the survey through the link provided in this email. This will better help the host city and the World Service Office Board of Heroin Anonymous to make their decision. If you know other delegates in your area or nearby please let them know about this survey as well. We would like to hear back from you no later than May 17, 2020. If you have any questions regarding this or any other HA related matter please feel free to reach out. Stay safe.
